

SIDO, the event accelerating your transformations and innovations since 2015!

SIDO, the leading event for the convergence of IoT, AI, XR and Robotics technologies, will be celebrating its 10th edition on **18 and 19 September 2024 at the Cité Internationale de Lyon**, proof of its maturity and ongoing commitment to industrial and service companies.

A key event in the decision-makers' calendar, SIDO supports companies in their digitalisation projects by bringing together all the players in the IoT, AI, XR & Robotics ecosystem over two days: tech solution providers, major groups, institutions, etc. They'll all be at SIDO! From innovative building blocks to complete turnkey solutions, the entire value chain is represented.

In 2024, SIDO is increasing its exhibition space by 20% to host LYON CYBER EXPO, the cybersecurity business event for SMEs, mid-sized and major groups. The aim is to make cybersecurity accessible, particularly to SMEs and mid-sized companies, which are less well equipped than large groups!

350 EXHIBITORS – 8000 PROFESSIONALS – 70 CONFERENCES – 210 SPEAKERS

Elements of language – Lyon Cyber Expo

SIDO is hosting the first edition of Lyon Cyber Expo. **The B2B cybersecurity event for SMEs, mid-sized and large groups.**

With Lyon Cyber Expo, SIDO is THE business exchange platform where manufacturers, tech leaders and the world of research can collaborate, share their knowledge, **create new technological partnerships** and design concrete projects **to protect the digital ecosystem of our companies.**

The aim is to make **cybersecurity accessible** to **SMEs and mid-sized companies**, which are less equipped than large groups to **counter cyber risks.**
